

Microflex: 170 g/m²/240 g/m² polyurethane (Pu)

MICROFLEX ensures your personal comfort and your protection from snow, wind and rain.

MICROFLEX is 100% waterproof coupled with a degree of air permeability, any built up of condensation inside the garment is quickly dissipated by the unique knitted backing of the fabric. All garment seams are sealed buy H.F. welding to ensure no water penetration.

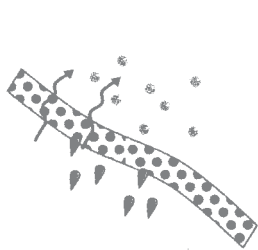

MICROFLEX is virtually noiseless in action and its built in stretch factor enables the garment to move with every demand of the user!

MICROFLEX is soft yet tough, its high-tech strength and performance ensure smooth action even in low temperatures!

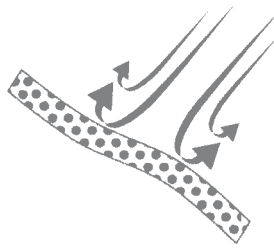

MICROFLEX is oil resistant and is impregnated with a powerful deodorant to fight off any body odour build up or fungi growth in the fabric.

MICROFLEX makes super light – weight garments that fold away compact and take up the minimum space in your luggage.

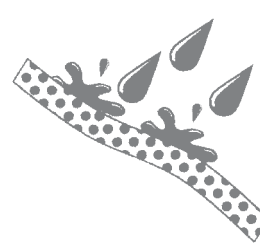

MICROFLEX retains its high-tech performance through repeated washings.

Breathable

Windproof

Waterproof

EN 342
– PROTECTION
AGAINST COLD

If the clothing comes with a thermal lining, a second pictogramme will be shown.

EN 471
– HIGH-VISIBILITY
CLOTHING

Here specifications are given for garments that have to attract attention to the person wearing them under condition of poor visibility, both during the day and at night.

EN 343
– PROTECTION AGAINST
FOUL WEATHER
CONDITIONS

The European standard concerns protective clothing against rain.

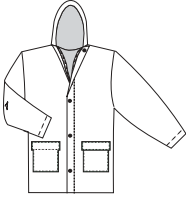

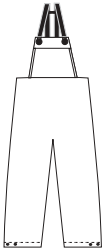

EN 1149
– ELECTRO STATIC
PROPERTIES OF
PROTECTIVE CLOTHING

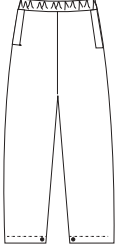

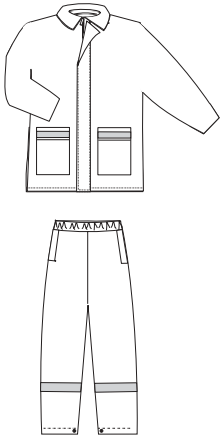

EN 533
– PROTECTION
AGAINST HEAT AND
FLAME
